*LITTLE PIGGY SENSORY EXPERIENCE PIGLETS
6 MONTHS-1YR

A fun new sensory exploration program that you and your developing baby can share. Every week we will discuss developmental strategies for you to use at home as we experience many sensory activities. The activities we will share in class will allow your child to use all his/her senses while exploring safely with you. at their side, Some of these may include finger-paints, water play, fabric exploration, some baby signs and baby massage techniques. Every session is different as they are built on the enrolled children's ability levels. Babies who are sitting up and reaching for objects to crawling infants are welcome to join us.

Location: Starkey Building, 311 S. Public Rd

Code	R/NR	Day	Time	Date
418750-A	$72/$82	Wed	9-9:45am	1/8-2/12
418750-B	$60/$70	Wed	9-9:45am	2/19-3/19

Revolutionary approach produces breakthrough results!

*Play blues, contemporary, classical and accompaniments - immediately - from your very first lessons

Children, Teens, Adults, Seniors

Simply Music is amazing! My daughter (who started lessons at age 8) learned to play with both hands from the very beginning. Over the past three years she has learned a diverse repertoire of music, music theory, composed her own songs, and even knows all the chords so at 10, she was able to "sit in" for the piano player at her grandfather's sing-a-long birthday party and accompany us for a couple of songs. If I had learned the fun songs that she is learning through this fabulous method, I doubt I would have quit my childhood piano lessons. *- Jane, Lafayette*

My son loves Simply Music with Shari! He's been taking lessons for almost 4 years and we get compliments all the time about how well he plays and how poised he performs. It's a great mix of memorization, sight reading and composing. Because he knows so many songs by memory, he never gets bored. He is doing so much better than I ever did in piano lessons as a child. It definitely works and it keeps the students engaged and interested. *-Parent*

*LITTLE PIGGY SENSORY EXPERIENCE LITTLE PIGS

18 MONTHS-5YRS

When was the last time you and your child got completely immersed in a full sensory experience? One that used all five senses? Our children's developing brains need sensory play to form important pathways. In this class you and your child will dig into a fun new sensory activity every week : which may include aromatherapy play dough, mood sand and many other messy fun activities. Parent's wont leave empty handed, as each class will provide ides for finding sensory activities at home as well. Please come dressed for fun and ready to get messy with Little Piggy Sensory Experience. Parents Participate with children.

Code	R/NR	Day	Time	Date
418751-A	$72/$82	Wed	10-10:45am	1/8-2/12
418751-B	$60/$70	Wed	10-10:45am	2/19-3/19

*LITTLE PIGGY SENSORY EXPERIENCE STORY BOOK PIGS

3-4YRS

Little Piggy Experience is excited to announce a new sensory experience for your older child. Each week starts with a well-loved story read aloud in our group time. We then transition to a sensory table, floor activity, or hands on craft experience that takes the story from a listening activity to a full sensory experience that you can enjoy with your child. These activities include but aren't limited to paint, goop, mud, water, rice, aromatherapy play dough, corn ,noodles, ice etc. , basically anything that bring the story to life for your child. We provide the messy play at our class so you don't have to do the cleanup at home. Some of the stories may include Goldilocks and the three bears, Cloudy with a Chance of Meatballs, Three Little Pigs, Going on a Bear Hunt , just to name a few.

Code	R/NR	Day	Time	Date
418752-A	$72/$82	Wed	11-11:45am	1/8-2/12
418752-B	$60/$70	Wed	11-11:45am	2/19-3/19

STEMgirls provides hands-on programming for the under-served population of girls interested in STEM (science, technology, engineering and math). The goal is to spark an interest for these girls in a STEM field leading them to become female STEM professionals. Using an exclusive, all female, closed loop business model, the gender equity focus of STEMgirls is to feed the pipeline of future female STEM professionals .

*STEMGIRLS LITTLE FREE LIBRARY HANDS-ON WORKSHOP

GIRLS ONLY 8-12 YRS

STEMgirls will design and make a Little Free Library (LFL). LFL's are creative and colorful mailbox size structures that are publicly displayed to promote literacy. The purpose of LFL's is to share books for free. STEMgirls will learn about and use tools to craft this hands-on STEM activity. The Little Free Libraries' made this day will be housed and registered in Boulder County at STEMgirls corporate office in Erie. **www.STEM4USA.org**

Code	R/NR	Day	Time	Date
414722-A	$60/$70	Sat	9:00am-12:00pm	1/18

*STEMGIRLS TSA (TAKE STUFF APART) LAB PROGRAM

GIRLS ONLY 7-13 YRS

TSA Lab is the most popular of all STEMgirls workshops. The activity is literal; STEMgirls take apart broken electronics without the worry of having to put it back together again. Parts are identified(i.e. where is the audio input? Or memory card?) Female STEMgirl mentors from a range of decades participate to promote girls to pursue jobs in technology.
Can be seen at **www.STEM4USA.org**
