We get messy in art

We build to create

We celebrate!

Cooking Corner

We will be sampling some Italian, this month, sort of! Green pasta is on the menu as well as spinach ice cream! It will be delicious!

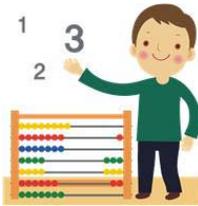

Much thanks to all the parents who joined us for parent teacher conferences, if you would unable to attend and would like to discuss your child's amazing accomplishments, please let us know!

ART

The best kind of art is messy, explorative, creative, no guidelines and much imagination. If your child's art comes home looking like you are not sure what it could be then it's a success because that piece of art work is exactly how they want it to be. It is theirs and an original, and I am sure that there are some definite Picassos in our class this year!

We will be counting, cooking, playing and writing this month while working on our listening skills. Our goal is to fill each other's buckets as well as our own at school and have that continue at home in everyday life.

"The objective of education is to prepare the young to educate themselves throughout their lives." Robert Maynard Hutchins
