FEBRUARY NEWSLETTER

Conferences went great! Thank you so much for making time to come in and connect with us. It was really fun to tell you funny stories, show you your child's work and let you know how fabulous your children really are!

January was full of winter fun with The Mitten story. We sang songs and played games about mittens. Last week we had a wonderful indoor picnic and talked about Groundhog's Day. We also made new place mats, and have been working on writing, counting and sight words. We also worked on sequencing and re-telling stories. We explored freezing water and melting ice and made *insta-snow* for some science fun.

February's Healthy Tip

Take the stairs instead of the elevator, walk around the block after a meal or make a new house rule: **no sitting still** during television commercials! (letsmove.gov)

Don't forget to keep bringing those handy water bottles to school every day!

Looking forward to February, we are going to need some help from you! We are assigning our 1st Homework Assignment!

We need each child to bring a self addressed and stamped envelope from home. We will be learning about how mail works, which will include; looking at maps, making graphs and exploring the importance of letters and numbers.

Valentine's Day!

We will be celebrating Valentine's Day by exchanging cards with one another. Look for the Class List on the side of this newsletter. **Please encourage your child to write his/her own name *and* the names of their classmates**☺
