### TAI-CHI FOR HEALTH

#### SMALL-SEMI-PRIVATE CLASS

This class is an adaptation of Tai-Chi by Dr. Paul Lam. Tai-Chi is low-impact, slow movement exercise that accommodates all mobility levels ranging from those with good balance to those limited to walkers and wheelchairs. The objectives are to increase mobility, strength and balance, while lessening joint pain and stiffness. Tai-Chi helps reduce blood pressure and improve cardio-respiratory fitness. Learn the basics, including breath, mental focus, postural awareness and correct mechanics of each move.
